ALTERATIONS IN WEST SIDE BUILDING MINIMIZE DAN-GER FROM FIRE.

seems, in regard to the condition of the west side high school building, it having been quite generally reported that the weekly assemblies of that school had been discontinued by Prof. Eaton for the reason that the building was considered unsafe. While it is true that the building is the one reported as being the least safe by the Board of Education committee appointed to inspect the school building of the city, it is also true that the most serious defects have aiready been remedied, and the assemblies have not been held for several weks past because it was inconvenient to hold them while repairs were in progress. The building is now considered comparatively safe in case of fire. A test was conducted vesterday by Prof. Eaton, the regular alarms of fire having been sounded without previous warning to any of the pupils, and the building was emptied in two minutes, with no sign of a panic. The assembly will be held today and regularly hereafter. The principal improvement already made is the changing of the doors to make them all open outward. Some changes are yet to be made in the stairways, when it is considered that the building will be as safe as any in the city. son that the building was considered un-

BOUND TO HAVE JACKSON.

MAYOR MORRIS ONCE MORE AP-POINTS HIM CLERK OF THE BOARD OF HEALTH.

Mayor Morris seems now determined to have C. M. Jackson in charge of the office of the Board of Health. He appointed him again yesterday. He sent s written notice to each of the members of the Board, telling them that he had appointed Jackson. Dr. Stewart, the Health Commissioner, said last night that he would not turn the office over to Jackson until ordered to do so by the court, and this he considers very unlikely. Of course, Jackson will continue to report at the Health office each day to have an excuse for drawing a salary in case the decision of the court should be in favor of the Mayer and himself. In making a test case of C. M. Jackson people generally consider that Mayor Morris has taken a very unwise step. It is doubtful if any other appointment could be more offensive to the community. written notice to each of the members of

SAINTS TO TACKLE TEAMS ABROAD

Planning to Invade Wyoming and Colorado for Laurels in the World of Basketball.

The long-proposed basketball tour of the crack L. D. S. U. team seems to be a sure go at last. Capt, Stanton received a letter Tuesday from the champion Cheyenne team announcing their intention of giving the locals a trip and telling them not to quit practicing. The Wyoming team has refrained from making any definite offers because they desired if possible to get a Utah trip, but since all hope of this had to be given up, as Logan refused to go in on the scheme, they have finally decided to take on the locals despite this fact.

to take on the locals despite this fact.

Perhaps they have been influenced to adopt this course because the Saints are now the undisputed champions of Utan, and, in addition to the Cheyenne team, the only ones who lay any claim to the intermountain championship, Consequently should the Wyoning team win they would be the undisputed champions. The Cheyenne manager says that his team will plen two games with the locals and should the result be a tie he suggests that arrangements shall be made for playing a third game. third game. Boulder is also doing her share toward

Boulder is also doing her share toward putting everything in suitable shape for the proposed trip, and offers to meet the locals in a series of three games. A letter is expected from the Boulder people in a day or so and then all the arrangements for the trip will have been completed. Victor is also to be given a chance, and it is probable that the Boulder manager may have already made arrangements for a number of games there.

The locals are more than jubilant over the prospects and will now buckle down to work harder than ever before. They are of the opinion that they can hold their own with any of the outside teams and say that all they ask is the chance. Local sports will follow the trip with great interest, for it will show how the locals compare with the best teams that the surrounding States have been able to furnish for years. The locals have as good a team as they have ever had.

Ryan went to the floor twice from hard swings in the first and second rounds, but in the third and fourth sent Beaucholte to the floor with right swings on the jaw. Again in the fifth he sent Beaucholte to his knees and he took the count for sight. Beaucholte was groggy and was at Ryan's mercy, but was not put out.

AGGIES OF LOGAN

AFTER CALIFORNIA GAME The State university of California last night acknowledged the receipt of a football challenge from the Utah Agricultural college at Logan. The Californians have not yet indicated their probable action in the matter, but it is evident that they are considering the challenge seriously. One feature of the possible contest to be considered is in relation to the fact that the California schools have abolished the gate receipts system in connection with their sports, which would make the taking of a team to the Coast a very expensive affair.

Walsh won another victory from Scheffner in the 700-point billiard contest last night. The score at the close of the contest win lift to 5 in favor of Walsh. in any department are not all right, but is merely a formal matter and something that is provided for in the statutes.

By reason of the departure inaugurated by the County Auditor and the County Treasurer after their assumption of office, in requiring that all claims be certified to them, the work of auditing the books will be a simple matter this year in comparison with other years.

Heretofore, it is understood that the Auditor would issue warrants on claims and the Treasurer register them before they had been certified down. Immediately after taking office County Auditor Fisher and Treasurer Carbis made a rule that no claim would be considered by them until each individual appropriation had been certified by the Clerk of the Board of County Commissioners. The rule has in no way worked any hardship, but, on the contrary, has saved much time and labor on the part of the county officials and has prevented the possible issuance and payment of any warrants not provided for by appropriations.
